Sheerline Prestige Bifold Doors

COMBINING INNOVATION, STYLE, SECURITY AND SUSTAINABILITY

Prestige bifolds can help soften boundaries, creating an increased sense of space and a seamless transition between your garden and the inside of your home.

Custom designed single rollers eliminate the need for floating mullions. Ensuring that whatever your style of door, our bi-folds have consistent 138mm sightlines between sashes, creating a balanced look.

FEATURES & BENEFITS

- 10 year guarantee
- Thermlock - unique thermal technology multi-chamber design
- Up to 7 pane configuration
- Outstanding security - multi-point lock
- High security interlocks
- Slim sightlines
- U-value as low as 1.0W/(m²K) with triple glazing or 1.4W/(m²K) with double glazing
- Range of powder coated RAL colours, dual colours, bespoke RAL and foiled finishes
- Part L compliant
- PAS24

Sheerline Index Bifold Doors

INNOVATION STREAMLINED

The Sheerline Index bifold door is a versatile and stylish solution that combines modern design with exceptional performance. Offering slim sightlines and a smooth operation, this bifold system allows you to create wide, open spaces while maintaining excellent thermal efficiency and security.

FEATURES & BENEFITS

- Super slim sightlines
- Double wheeled design
- Single roller and pre-gasketed clip in beads
- Bespoke Ingenious locking with one piece keeps and integral finger-pull passive door lock
- U-value as low as 1.0W/(m²K) with triple glazing or 1.4W/(m²K) with double glazing
- Available in 3 standard colours - Anthracite Grey RAL 7016, Jet Black RAL 9005 and Hipca White Gloss RAL 9910
- Part L compliant

Cortizo Bifold Doors

INNOVATION STREAMLINED

The appealing design, sleek sashes, and robust multi-point locking system, along with their energy efficiency, contribute to the popularity of these bifold doors.

Cortizo doors have super slim sightlines and yet are incredibly strong and durable.

Choose from up to 14 sashes with inward or outward opening. A wide range of configuration options with either even or odd numbers of sashes.

FEATURES & BENEFITS

- 10 year guarantee
- Up to 14 sashes
- Energy efficient
- Multi-point locking
- 55mm sash
- Bespoke RAL colours, woodgrain finishes or metallic effects
- BFRC
- PAS24

Cortizo 4700 Sliding Patio Doors

COMBINING ENERGY EFFICIENCY AND STYLE

Enjoy uninterrupted views, allowing maximum light into your space.

Cortizo Patio Doors have a slimline 47mm mullion, that maximises the light and view with as little visible frame as possible.

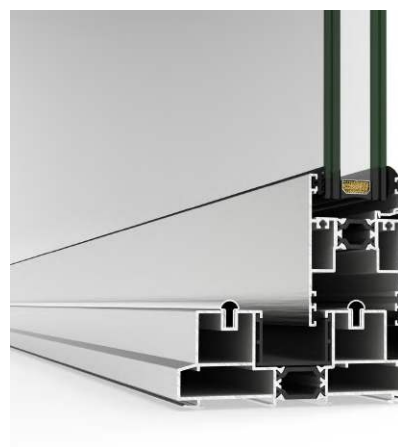

The Cortizo 4700 Slimline Aluminium Sliding Patio Doors have been tested to the highest standards, they are weather resistant and offer excellent thermal efficiency to reduce energy and heating bills.

Each frame has a thermal-break which insulates the doors against heat loss, and helps to reduce the risk of condensation.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient
- Multi-point locking system
- BRFC
- PAS24
- Standard and bespoke RAL colours

Sheerline Lift & Slide Doors

SLIM, MULTI-TRACK ALUMINIUM DOORS

These high performance patio doors feature ultra slim sightlines with interlocks as slim as 52mm. They are the perfect way to frame a view and create panoramic views that can transform interiors.

You can choose between dual and triple track options, with various configurations of fixed and sliding panes to meet your exact requirements.

Additionally, with the flexibility to select two, three, or four panes it's easy to create the perfect connection to an outdoor space.

To ensure the elements are kept safely outside, whatever configuration is chosen, the doors will incorporate their patented sealing system, ensuring weathertight protection against the harshest UK weather conditions.

Choose from 12 standard colour options, bespoke or dual colours.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient with Thermlock technology
- Exceptional security built-in
- Optional PAS24
- Discrete hook-locks eliminate protruding pegs
- U-value as low as $1.0W/(m^2K)$ with triple glazing or $1.4W/(m^2K)$ with double glazing
- Interlocks as slim as 52mm

Sheerline Prestige French Doors

On bright days, fully opening French doors creates a seamless connection between your garden and home.

The remarkably slim sightlines will improve your views and let natural light illuminate your living space.

Sheerline French Doors utilise a thermally efficient 72/80mm system, offering a diverse selection of styles and colours, incorporating a full depth Eurogroove, which maximizes your hardware options.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient with Thermlock technology
- Patented corner construction
- Slim sightlines
- Stepped and contemporary opening sash
- Exceptional security built-in
- PAS24
- U-value as low as 1.0-1.4W/(m²K)
- Available in a wide range of colours and finishes

Cortizo French Doors

INNOVATION STREAMLINED

With their sleek design, slim sightlines, and robust security, these aluminium French doors offer the perfect blend of elegance, security, energy efficiency and durability, making them a popular choice.

The doors can open in or out and are finished with stylish lever/lever handles. Multi-point locking, an Ultion cylinder, and optional PAS24 upgrade offer excellent security.

Customise the door colour, selecting from an extensive range of RAL colours, or choose from one of our smooth or woodgrain foil finishes.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient
- Multi-point locking
- 55mm sash
- Bespoke RAL colours, smooth or woodgrain foil finishes or metallic effects
- BFRP
- PAS24

Sheerline Classic Heritage Doors

ART DECO STEEL LOOK DOORS WITH STUNNING AESTHETICS

Available as either a single door or French style entrance doors the Heritage Door is remarkably versatile. It effortlessly adapts to architectural styles from traditional and period properties to contemporary.

Thanks to its versatile design, complete with dummy transom bars and an extensive color range, this door beautifully complements the distinct personality of your home.

Period Inspired Lockbox Design

Featuring a retro pocket feature to the interior and exterior of the lockbox providing a unique heritage look.

FEATURES & BENEFITS

- Ultra slim sightlines
- Energy efficient with Thermlock technology
- Exceptional security built-in
- Optional 2 or 4 transom bars
- U-value as low as 1.4W/(m²K)
- Available in a wide range of colours and finishes
- Optional PAS24 upgrade
- 10 year guarantee

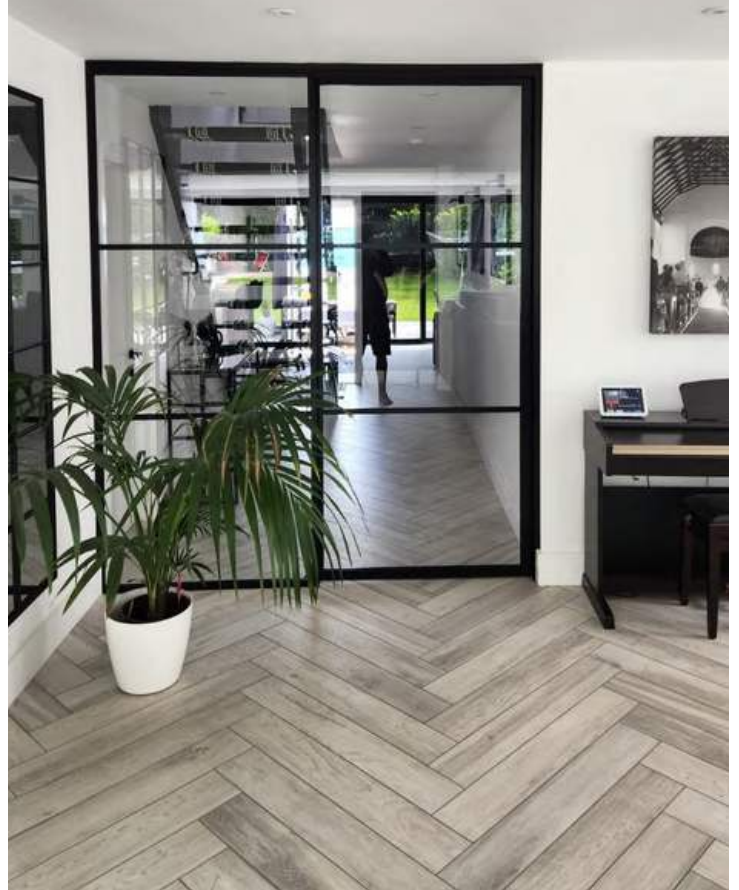

Jack Aluminium ID30 Internal Doors & Glazed Screening

The ID30 Internal Door and fixed glazing system is the ideal for creating bespoke glazed interior partitions, dividers or walls of glass, which separate spaces whilst maintaining optimum levels of natural light and an open-plan living aesthetic.

The ID30 Internal Door System is ideal for both domestic and commercial projects. It performs exceptionally well in partitioning offices, studios, or entrances within commercial spaces, and it is equally effective in creating distinct areas between kitchens, living rooms, and dining areas in residential properties.

This unique system has been expertly designed for the internal market offering hinged, pivot, sliding and bifolding door options, and has slim sightlines, it is available in RAL colours, features soft-close and soft-open options, concealed hinges, where required locks, and a wide range of configuration options.

- Single or double hinged
- Pivot door
- Sliding door
- Pocket door
- Bifolding door

FEATURES & BENEFITS

- 10 year guarantee
- Flexible configurations, available in RAL colours
- Minimal sightlines
- Soft-close and soft-open options
- Lock solutions available
- Concealed hinges
- Easy installation

Sheerline Prestige Aluminium Windows

TRANSFORM YOUR HOME WITH INNOVATIVE & STYLISH WINDOWS

Stylish aluminium windows that combine exceptional thermal performance with refined looks

Choosing the right aluminium windows for your home is an important decision. An investment that makes a real difference to not only the look of your property but to how warm and secure you feel too.

Prestige windows are thermally efficient and versatile, available in a wide range of window styles, and have been designed to be sympathetic to the modern trend for light, airy interiors. Using slim sashes allows more light to flood into your home, helping create that important sense of space and tranquillity.

The high security, multi-point locking helps to keep you and your home safe and secure from intruders.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient with Thermlock technology
- Exceptional security built-in
- U-value as low as $1.0W/(m^2K)$ with triple glazing or $1.4W/(m^2K)$ with double glazing
- Concealed ventilation for improved, discreet aesthetics
- Available in a range of colours and finishes

Made in
Britain

Sheerline Classic Aluminium Windows

ULTRA SLIM, HIGH PERFORMANCE WINDOWS, BEADED & BEADLESS

The ultra slim 59mm sightlines of the innovative Classic window system maximises the light flooding homes, creating a refined architectural look. The patented corner construction method resolves issues with misaligned corners.

Our Classic windows are available in casement, French and fixed styles, with sightlines as slim as 36.5mm for picture windows, and 59mm for opening windows*. Classic lets light flood in, opening up interiors helping to create that important sense of space and tranquillity.

The Classic range can also be used to create traditional 'historically inspired' windows and doors. With specifically designed decorative bars for a distinctive period aesthetic.

The innovative Thermlock® multi-chamber design helps to keep properties well insulated against the worst of the UK weather.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient with Thermlock technology
- Exceptional security built-in
- Optional PAS24
- Beaded or beadless options
- U-value as low as 1.1W/(m²K) A+ WER with triple glazing or 1.5W/(m²K) A WER with double glazing
- Available in a range of colours and finishes

Sheerline S1 Roof Lantern

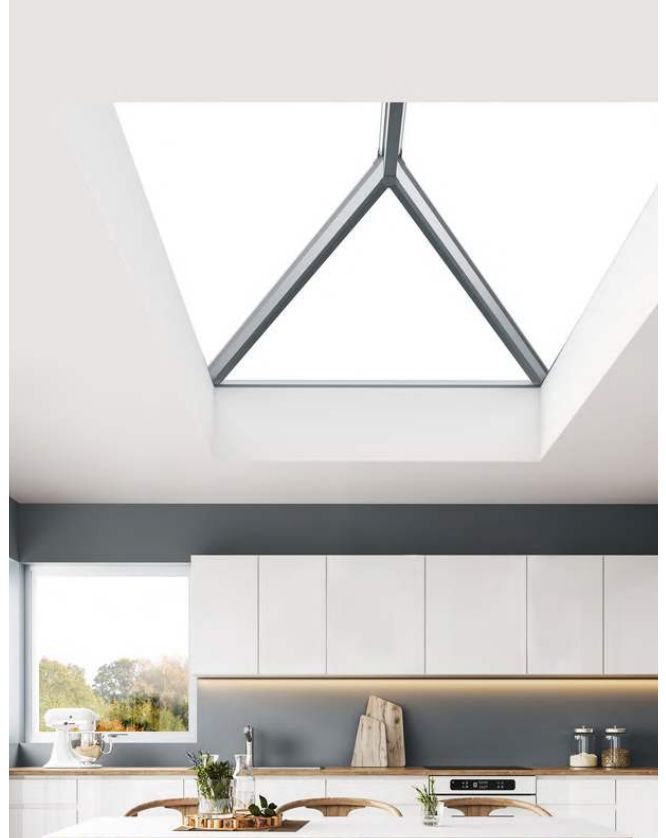

THE UK'S MOST SECURE LANTERN

SECURE, SUSTAINABLE AND STYLISH

The S1 features ultra low line aesthetics so rafter and hip top caps sit close to the glazing level on the exterior, creating a sleek modern look. Completing this refined architectural appearance, the corner and rafter end caps run perfectly in line with the perimeter, so no unsightly angles jut out to spoil the perfect lines of this contemporary high-performance aluminium lantern.

The innovative construction of the S1 system eliminates the security weaknesses of traditional lantern designs. Features such as anti-tamper screws, enclosed anti-tamper glazing, security tape and the patent pending glass lock, alongside the unique high security ridge end, ensure there isn't an easy way to enter a property via its roof lantern.

FEATURES & BENEFITS

- 10 year guarantee
- 13 styles and a range of colours
- Energy efficient with Thermlock technology
- Exceptional security built-in - optional Secured by Design upgrade
- 25° pitch

SHEERVENT®
FLUSH INTELLIGENT VENTILATION

Fully thermally broken flush roof vents make this lantern stand out from the crowd.

Optional rain, wind and light sensors can automate the closing of your roof vent for added peace of mind.

Eurocell Skypod Roof Lantern

CONTEMPORARY DESIGNS

Eurocell Skypod Roof Lanterns are a stylish, energy efficient roof lantern, providing a stunning, cost-effective solution.

Frame a spectacular view and let light flood into a property with a Skypod roof lantern. An affordable alternative to aluminium skylights, Skypod roof lanterns add value and are a contemporary feature that consistently inspire homeowners and their guests. Clever design features are the secret of its success.

Get the exact look you want with four eye-catching styles and a range of colours for the frame and glass.

All of the UPVC in a Skypod roof lantern is reclaimed, recycled and reused from end of life UPVC.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient U-values as low as $1.0W/(m^2K)$
- Temperature control glass
- Unique spider bar glazing cap
- Fixed 20° pitch

Jack Aluminium JD47

NON-THERMAL DOOR & SHOPFRONT

The JD47 Non-Thermal Shopfront and Commercial Door System offers the ideal non-thermal solution for a wide range of commercial applications.

Robust and secure, JD47 is well suited for high-traffic commercial and public-sector buildings, retail, car showrooms, leisure facilities and schools.

The JD47 is a proven high-performance system ideal for commercial non-thermal partitioning. It offers versatile design options, including 4 header bar solutions, single or double doors, and various shopfront and internal partitioning configurations.

Designed for maximum security, the 22mm glazing height on the beads ensures greater glass coverage and enhanced resistance to attacks on the glazing units.

FEATURES & BENEFITS

- Wide range of design solutions
- Improved security achieved by integral external beading
- 50mm sightlines for both single and double glazed doors
- Extensive range of thresholds available
- Available in single and double glazed
- 4 header bar options for standard and automatic doors
- RAL colours
- Glazing options 6-28mm
- Frame depth 47mm

Jack Aluminium TD68

THERMAL DOOR & SHOPFRONT

TD68 Thermal Door and Shopfront System is one of the most thermally efficient, high usage commercial systems on the market.

This robust system is ideal for high-traffic areas like schools, hospitals, and commercial buildings, offering excellent thermal and security performance with versatile design options for both retrofit and new-build projects.

TD68 provides a secure, cost-effective solution for single and double emergency exit doors, featuring a unique low rebated threshold, rebated door stile, and anti-snap security cylinders for enhanced safety and accessibility.

Remote access options offer secure solutions for tamper-prone entrances. Featuring a highly secure and cost-effective security solution. The doors achieve SBD compliance and this can be achieved with a motorised multipoint lock or with two electromagnetic locking mechanisms.

FEATURES & BENEFITS

- Energy efficient with U-Values as low as 1.7 W/m²K
- Thermally broken low threshold
- Curved finger guard to prevent trapped fingers
- Unique design for concealed panic bars
- Side and fan lights tested to PAS 24 enabling the creation of SBD compliant screens
- Durable to withstand harsh environments
- Numerous hardware combinations tested on both single and double doors
- Single and dual colour polyester powder coat
- Emergency exit option
- Remote access option

Options & Extras

Colours & Finishes

Find the right colour to bring your vision to life. Depending on the product chosen, colour options include :-

- Dual colour
- Powder coated RAL
- Metallic finishes
- Smooth or woodgrain foil finishes
- Bespoke colours in matt, satin, gloss or textured

Integral Blinds

Venetian blinds can be seamlessly integrated into our doors or windows. You have the option to choose the operating mechanism, whether it be a cord, wand, rotational knob, or a magnetic system. Select from a palette of 10 colors to customise the blinds to complement the style and decor of the property.

Handles

In addition to our standard handle range, we offer extensive selection of handles designs, colours and finishes ensuring the perfect match for the style or functionality needed.

Astragal Bars

Astragal bars provide a sophisticated traditional aesthetic reminiscent of period architecture, simulating the appearance of classic individual window panes with the advantages of modern construction.

Sheerline Prestige Entrance Doors

THE PERFECT WAY TO MAKE AN ENTRANCE

Glazed aluminium doors help maximise the light flooding into homes, allowing homeowners to perfectly frame a view. The perfect way to bring an improved sense of space to an interior.

The doors are secure with multi-point locking and an optional midrail can accommodate a letterbox if required.

Door combinations can also be manufactured with continuous thresholds that continue across any sidelights for neater and higher quality installations.

Three high performance, low level threshold options all feature fully weather-sealed rebates that keep the worst of the British weather safely outside. Door frames easily fix to these thresholds using a universal moulding that's hidden from view externally. A cover strip continues the high-end aesthetics, hiding the fixings, which can be slid under the moulding to aid removal.

FEATURES & BENEFITS

- 10 year guarantee
- Energy efficient
- Available in a wide range of colours and finishes
- PAS24
- Wide range of configurations
- Sightlines 137mm sash to sash, 116mm midrail
- U-value as low as 1.0-1.4W/(m²K)

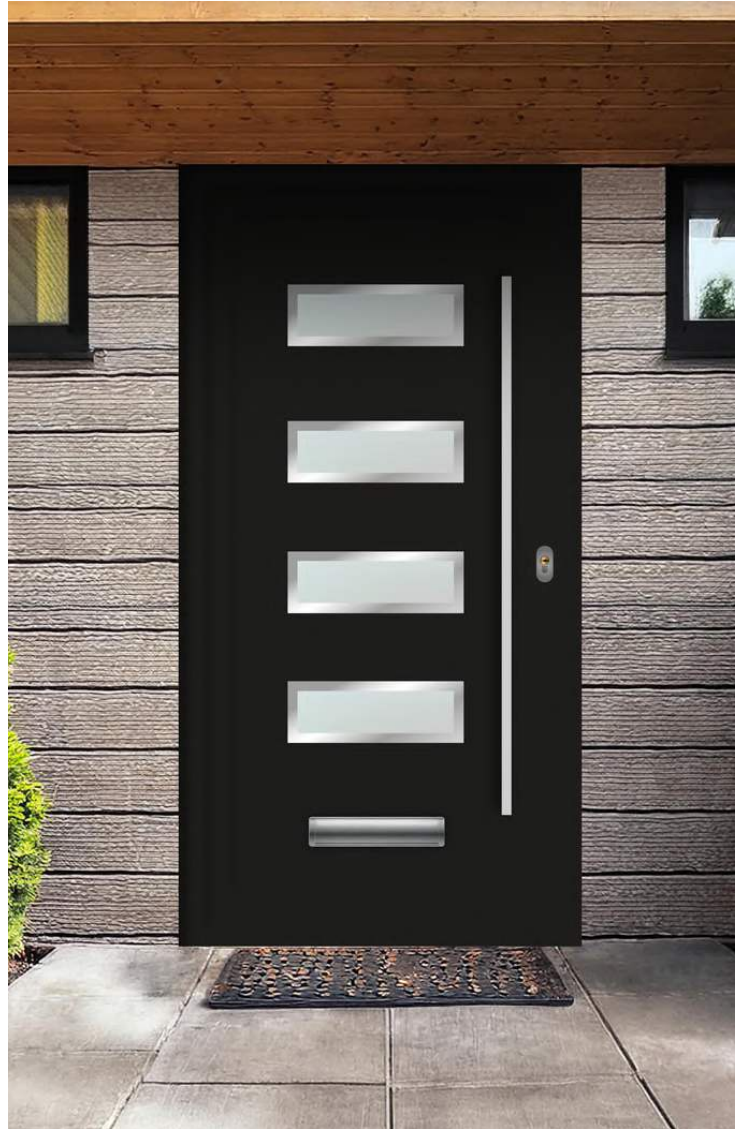

Alidoor Precise Collection

ALUMINIUM DOORS THAT MERGE SOPHISTICATION & TECHNOLOGY

The Precise Collection of aluminium doors blend cutting-edge design with exceptional durability. These 49mm single leaf doors are constructed with 2mm aluminium inner and outer skins.

From sleek minimalist designs to bold, contemporary statements, the doors are crafted to the highest standards of quality and performance. Personalise the door with a choice of RAL colours, a luxurious copper or oxidized copper finish, and complete the look from the range of high-quality hardware.

Safety and security are high priorities, which is why these doors are designed with state-of-the-art security features.

FEATURES & BENEFITS

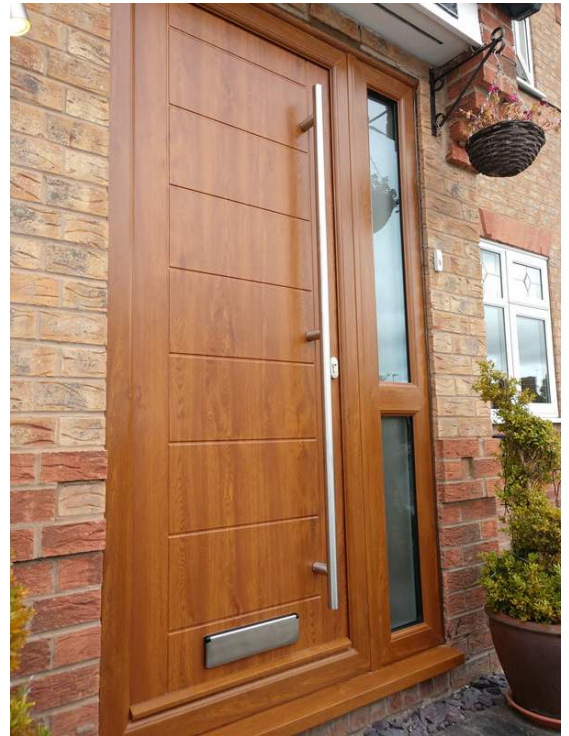

- 10 year guarantee
- 49mm single leaf door
- 2mm aluminium inner and outer skins
- 44mm triple glazed tempered glass insulated units
- All hardware used in The Precise Collection is Secured by Design Accredited
- Optional smart locking

Solid Core Doors

Constructed from a multi-layered light hardwood, our Solid Core Doors offer exceptional strength and stability. They are thermally efficient and provide excellent security, equipped with Coolskin PVC skins that resist extreme temperatures and align seamlessly with the outer frame foil.

- 4 solid core ranges
- Over 200 door styles
- 22 door colours
- 50 plus stunning glass designs
- Option Secured by Design (SBD) upgrade
- Ultion locks as standard
- Traditional and contemporary hardware

Exceptional Strength, Performance & Style

The Solid Core door slab is manufactured here in Britain under strict BS EN ISO9001:2015 quality management systems and is then assembled in a bespoke door factory to achieve BS EN 14351-1:2006 +A1:2010 ensuring that high quality standards are met.

Unrivalled Security

Security is not simply a priority; it is a fundamental commitment that is embedded in every detail of these Solid Core Doors. From the slab to the frame, as well as the hardware and glass, each element is meticulously selected to ensure absolute peace of mind. Security goes beyond meeting industry standards; it is about exceeding expectations and providing customers with a trustworthy defense.

FEATURES & BENEFITS

- 10 year product warranty
- 48mm solid core
- 1.4 W/(m²·K) U-value
- Multi layered hardwood core
- Designed with security in mind
- Linear sculptured (standard) or chamfered finish
- 5 threshold options
- 3 hinge options

French Doors

Choose from 33 door designs to create an entrance that is not only impressive, but secure, energy efficient and durable. With door designs to complement both traditional and modern homes.

Stable Doors

Stable doors are a popular option as a back door, with a practical, rustic appeal, they are ideal for cottages, farmhouses, traditional and contemporary homes. Choose from 11 designs and 20+ glazing options.

GRP Composite Doors

Foam filled composite doors with a high definition smooth or grained GRP outer skin that will look stunning for years to come.

The GRP skinned foam core door we supply offers an outstanding U-value that outperforms competing products. Whilst it's affordably priced, the doors combine aesthetic appeal with the essential qualities of strength, security, and energy efficiency.

- Over 57 different door styles
- 17 door colours and 20 frame colours
- 50 plus stunning glass designs
- Optional Secured by Design (SBD) upgrade
- Traditional and contemporary hardware

Exceptional Strength, Performance & Style

GRP composite doors offer a combination of strength, security, energy efficiency, and aesthetic appeal, making them a popular choice for homeowners looking for high-quality, low-maintenance external doors.

FEATURES & BENEFITS

- 10 year product warranty
- 44mm foam core
- 1.0 W/(m²·K) U-value
- Durable and secure
- Linar sculptured (standard) or chamfered finish
- 5 threshold options
- 3 hinge options

Secured by Design

With a few simple additions these doors can achieve Secured by Design; the Police preferred specification.

FD30 Solid Core Fire Doors

The FD30 Solid Core Fire Door is an exemplary choice for ensuring optimal fire safety in any building, distinguished by its impressive 48 mm solid core and wide choice of styles, colours, hardware and glazing options.

- Choose from 18 door styles
- Hardware to suit all property types
- Available as internal doorset only
- Independently tested

FEATURES & BENEFITS

- 10 year product warranty
- 48mm foam core
- 1.6 W/(m²·K) U-value
- 16 layers of veneered timber
- Linear sculptured (standard) or chamfered finish
- 4 threshold options
- Astra concealed or Dorman overhead door closers

Tested and Approved

Our FD30 Solid Core Doors successfully pass all regulations by meeting stringent criteria set by fire safety authorities. The doors undergo thorough testing to ensure they withstand fire for a minimum of 30 minutes, as mandated by FD30 certifications.

Their robust 48 mm solid core material serves as a formidable barrier against flames and heat, exceeding industry standards. Additionally, they are meticulously constructed with fire-resistant materials and feature effective seals and intumescent strips to prevent the spread of fire and smoke and provide unparalleled protection and peace of mind in any residential or commercial setting.

Our range of Fire Doors have been tested and passed the latest fire door standards BS476-22 and BS EN 1634-1. Bi-directional testing by Warrington Fire certificate's 402105 and 403720 and 3rd Party accreditation by Certifire certificate of approval CF 5705.
